Beech Class Spring Newsletter

Welcome Back

I hope you all had a lovely Christmas and New Year, even if it was very different this year.

The children were all fantastic at adapting to new routines last term and made some great progress in their learning.

This term always seems to be a very busy one due to its short duration. Along with all the classroom based learning, have a couple of virtual sporting fixtures planned for Year 3/4 this term which some children from Beech Class will have the chance to take part in. I look forward to seeing the children continue to work hard, and build on the great progress they have made so far.

Miss England

Maths and Literacy

Our literacy work this term is going to be based on stories about imaginary worlds. We are reading Fantastic Mr Fox as our class book and will be using this as our inspiration. We will also be learning to write recounts of memorable experiences.

In maths, we will focus on measure and in a couple of weeks, we will begin to learn about fractions of shape and number.

Topic and Science

The topics we are covering this term are 'Predator' and 'Flow'. In the first half term we will look at food chains and animal habitats, focusing on birds of prey and the Amazon Rainforest. This will then lead us on to our second topic which is when we learn about some of the major rivers of the world, their geography, and the important role they play in the environment.

During this term, we will also begin various experiments with plants. We will subject them to various growing conditions and see what happens!

Reminders

PE kits need to be worn on Tuesday and Wednesday.

Please ensure that all children are wrapped up warm with plenty of layers. With the windows open all the time, the classroom can get very chilly! Thermals are our friends!
