

History

Describe the lives and history of the Iroquois

Compare artefacts from Britain's past to those from North America

READING

We are reading the Firework Maker's Daughter by Phillip Pullman.

WRITING

Use metaphors in poetry and writing.

Know how to write speech punctuation in a story and use persuasive language to write for a targeted audience.

PSHE

Know that Jesus is our friend and investigate the relationship between friends, family and others. Understand what to do when things feel bad.

MUSIC

Learn how to play the recorder and perform a piece of music using equipment.

PE – Dance and Games Skills

Create actions to represent emotions and link these together, performing to music.

Develop balance, catching and throwing, tactics and hitting and fielding skills.

Road Trip USA

Pack your bags as we head over the other side of the pond to the United States of America to see how they live. Discover different landmarks and the history of the Native American tribe Iroquois. Enjoy the bright lights of Broadway and learn how electricity works before putting on our own performance. Will you become a your own Hollywood star?

SCIENCE

Identify home appliances that use electricity and their uses. Construct a simple circuit using electrical equipment and label these correctly on a diagram. Identify what a switch is and how it works in a circuit. Conduct a fair test experiment using different insulators and conductors of electricity to identify what makes a good switch.

RE

Understand the purpose of community and the local church. Identify the work that people do to support that community and why it is important.

Investigate the importance of the Qu'ran.

Maths

Use Multiplication to help solve mathematical problems. Develop our understanding of the multiplication tables to help with division, measuring areas, fractions and decimals.

Geography

Locate the United States of America on a globe and some famous locations. Use the compass points to describe locations and compare a famous locality with where we live.

ART/DT

Investigate colours and identify how to create different shades from primary colours

Design and make Native American artefacts using clay
